Hi,

Okay, the word draft was for what first went up to the docket. Something I thought was routine, However, likewise, that for the same meeting, when we send the roster to Endyna for distribution at the actual meeting (when in-person) the word draft is not used (example attached).

Thanks Todd. I spoke briefly with Hayley about this question. While there is some discretion in our approach, my personal preference is to drop the draft before publicly releasing the roster (particularly within 15 days prior to the meeting). We can always issue an updated roster, as needed. As you noted, the actual participant list will appear in the minutes.

Thanks again.

Steve

Hi Hayley,

I've gone back to look at previous rosters we have posted to the docket and I've been including a header to indicate 'draft.' That is pretty routine since this is posted pre-meeting—it's always possible a change comes along with someone dropping out or possibly is added (adding is not so likely).

The final roster is actually the listing in the meeting minutes and final report.

Best Regards,

Todd Peterson, PhD

Hi Diana,

Thank you.

I noticed that the TCE roster in the docket was labeled as draft, should this also be labeled as draft? Or did I perhaps look at the wrong one for TCE?

Thanks,

Hayley

I heard from Gino that OPPT has a new director. She just started last week.

Gino should include her name to the WebEx training for OPPT, and we should invite her to speak. Thanks.

Hi,

Yes, in fact I think Alex has been on the agenda for all the SACC meetings.

Added Agenda thought:

The one difference may be who will be on the agenda ahead of her?

Would that still be Mark Hartman to represent OPPT or is someone else to fill that slot?

Mark last time was exceptionally brief and introduced Alex.

All,

I confirmed with Alex this morning, she would like to provide opening comments at the asbestos meeting. Please add her to the agenda and coordinate with Don to provide her a call in number as a speaker.

Thanks,
Hayley

Diana and all,

I want to update and confirm the files I'm about to load into FDMS. One FYI and one question:

- 1) FYI – I copied the listing for Mark Johnson from the file Diana sent this morning and pasted it into the version of the roster I sent late last week (see attached).
- 2) Question – I believe the filename for the Charge document “2_Draft Charge to the Panel for Asbestos 4-10-2020.docx” should be changed to “2_Final Charge to the Panel for Asbestos 4-10-2020.docx” correct?

As I noted below, I will also email the public comments to docket staff. In addition, all 9 files (7 attached + 2 public comments) will be copied into the SACC (Heronet) folder for the convenience of the reviewers.

Please let me know if you see any concerns. I'll proceed with uploading the files into FDMS momentarily. However, I can swap files (if needed) up to the point docket staff begin their review.

Thanks.

Steve

Diana and all,

Attached are the files I plan to upload into FDMS on or before Monday.

The public comments will be emailed to docket staff to address. Am I correct that the filenames for the public comments are as submitted by the commenter?

Thanks and have a great (and safe) weekend.

Steve

Hello Steve,

Thanks for loading the documents to FDMS.

The agenda for the April 27-30 meeting will be prepared after I receive the revised charge questions. Thanks.

Best Regards,
Diana

Thanks Nathan.

All,

I accepted all edits in the roster and made a couple additional changes. I'm also renaming the files to prepare for uploading. I'll send the final batch of files to everyone before loading into FDMS (which means this may be Monday).

Diana,

Do you have the draft agenda for April 27-30? We generally try to load this in the docket about 15 days prior to the meeting, though I don't think this has been possible for the last couple meetings.

Thanks.

Steve

Subject: RE: Documents for Asbestos Docket

Thanks Diana. I'll await Nathan's final edits to the biosketches. In addition, I saw the roster and agenda attached. However, I don't see the other files:

- 1) ~~Final public roster~~
- 2) ~~Public Agenda from the April 7, 2020 preparatory meeting~~
- 3) Slides from the April 7, 2020 preparatory meeting
- 4) Public comment materials (slides and written statements, if any, presented to or otherwise sent to SACC members)

With respect to the scope document, I had to do some searching on the web, so I've attached the pdf. We can add this to the shared folder and I'll upload to fdms. There is also the problem formulation document (attached). Did they want that too.

Thanks.

Steve

Hello Steve,

Thanks for the edits. I have made a couple more changes (ethelene oxide corrected to ethylene oxide; Ph.D. to Ph D). My version is attached. Nathan can take a quick look as suggested by Hayley.

I have attached other documents you listed. In addition, the scoping document for Asbestos is also attached. The panel chair has suggested posted of this document so the panel is aware of the scope of the risk evaluation.

Subject: Documents for Asbestos Docket

Diana,

I finally managed a quick review of the biosketch file. I found a couple minor edits. However, one more significant revision is that Bradley Van Gosen's bio included his first name (e.g., "Brad serves on . . ."). This seemed inconsistent with the others and a little too informal so I made some changes.

Please check the attached revisions and, if okay with you and Hayley, I'll accept the changes and use this file for uploading into FDMS.

In addition, please send me the following files for uploading into FDMS:

- 1) Final public roster
- 2) Public Agenda from the April 7, 2020 preparatory meeting
- 3) Slides from the April 7, 2020 preparatory meeting
- 4) Public comment materials (slides and written statements, if any, presented to or otherwise sent to SACC members)

Please let me know if I am missing anything. Otherwise, I'll proceed with uploading these files into FDMS when I have all 5.

In addition, I'll create a "Public Comments" folder in the SACC (Heronet) folder so we can upload public comments there for the convenience of the members (copying Todd as I believe he said he has done this for prior meetings).

Thanks.

Steve
